

18 December 2019

Dear Dr. Parashar

CASC has reviewed the two documents that you have put out for comment, and CASC members have voted to endorse the plans as a whole as being valuable guidance for the NSF and to the benefit of research in our nation as a whole.

Thank you for the opportunity to review and comment on the living documents, please let me know if you need further feedback in the future.

On behalf of CASC,

Lisa Arafune,
Director, CASC
